

REVENUE AXIS · CUSTOMER DATA OS

AXIOM

*turns scattered customer data into one revenue base —
and shows where the **money** is.*

WHO THEY ARE · WHERE THE MONEY IS · WHAT LEAKS · WHAT TO DO

THE PROBLEM

You already have customers. You just have no **base**.

Your customer data is scattered across ads, website, CRM, messengers, forms, spreadsheets, orders and sales reps. The money is in there — but nobody pulls it out systematically.

Ads

Website

CRM

Forms

Sheets / CSV

Email

Orders

Bookings

Marketplaces

Sales lists

THE SOLUTION

AXIOM is your Revenue Axis.

It turns scattered customer data into one living revenue base — and shows where the money, the leaks, and the growth are.

COLLECT → UNDERSTAND → CHANNEL QUALITY → MONEY → ACTIONS

Not a dashboard. Who your customers are, where the money is, what leaks — *and what to do today.*

The owner's morning command center.

Not charts. Not BI. What to do today to make money.

- 1 Money, not metrics**
"Money in dormant", "CRM hole" — management signals, not a dashboard.
- 2 Channel quality**
Which channel brings real customers, and which brings junk.
- 3 A ready action**
Every card is a step: who to win back, what to check, where to grow.

We build your base from everywhere.

Wherever it's scattered today — that's where we pull it from.

- 1 **Pulls from everywhere**
Website, forms, CRM, lead forms, orders, email, messengers, CSV/Sheets.
- 2 **Merge & dedupe**
Duplicate phones and emails → one profile with a touch history.
- 3 **One profile**
Not 12 lists — one base: source, orders, status, consent.

Base → segments → channel quality.

Owners don't need cheap leads — they need real customers.

- Who your customers are**
New, active, dormant, VIP, lost, junk — automatically.
- Channel quality**
Not "lower CPL" — which channel brings customers who buy and return.
- What to ask your agency**
Why a channel brings cheap leads but almost no deals.

Money in your base and ready actions.

Analytics without action is useless. AXIOM moves you to work.

- 1 **Where the money is**
Who to win back, who to resell, which leads are slipping.
- 2 **A ready action**
Segment + email/SMS copy + a task for the rep + an ad audience.
- 3 **Export anywhere**
CSV · Excel · API · ad audiences. Plus a white-label report.

app.axiom.io / brew-co / money

What will make money this week

Win back dormant 90+ days → email with an offer · 417 customers

Resell "bought twice, gone quiet" → SMS · 82 customers

Chase unworked leads → task for the rep · 96 leads

Exclude junk from ads → suppression audience · 1,240

● Ready to export: segments, copy, tasks, audiences

BETWEEN ANALYTICS AND CDP

Not attribution. Not an enterprise CDP.

VS TRIPLE WHALE / NORTHBEAM

Not "cost per lead", but who's alive

They score ad ROAS. AXIOM: who'll buy, who's dormant, who to win back, which channel brings junk.

VS SEGMENT / ENTERPRISE CDP

The first practical step

No data team, no months of setup. Collect the base, find the money, ship actions — at an SMB price.

VS CRM

CRM stores deals

AXIOM unifies the base from everywhere and shows the owner where the money and leaks are.

Deeper than analytics. Simpler than a CDP. *Built for the owner.*

WHO IT'S FOR · TWO PATHS

One engine — two go-to-markets

DIRECT

SMB · local services · e-commerce

Unify customers from your site, ads and CRM into one base — and earn from it again. Without hiring a data team.

WHITE-LABEL

Agencies

Give every client CDP-style value without an enterprise budget: one base, segments, channel quality and reports under your brand.

YOUR DATA – YOURS

Your base only. No scraping anyone.

AXIOM works with data you collected legally — through your site, CRM, ads, forms, orders and communications. We don't buy shady lists and we don't harvest non-customer profiles.

First-party only

Consent & source on every contact

One-click export

No lock-in – the base stays yours

CCPA / CPRA by design

PRICING · \$/MO

Affordable for SMB, profitable for agencies

STARTER

\$99 /mo

Small & solo local business. Basic import, dedupe, dormant, channel source, export.

CORE

\$249–399 /mo

SMB with ads + CRM + email. Segments, channel quality, AI insights, weekly actions.

GROWTH

\$699–999 /mo

E-com, multi-location, larger SMB. Retention, reports, team workflow, audiences.

AGENCY

\$399–799 + \$79–199/client

Multi-client, white-label, customer data audits, branded reports.

THE WEDGE · FAST RESULT

Find hidden revenue in your base **in 7 days.**

- Unify your base from every source
- Show junk vs money channels
- Surface unworked leads
- Find duplicates and dormant customers
- Build win-back segments
- Hand you 10 growth actions for the week

Don't continue — *take your whole base with you.* No lock-in.

WHY "AXIOM"

*An axiom is a self-evident **truth** that
needs no proof.*

We make your **profit** one.
